StoryJumper – Class Set-Up

Class Set-Up

- Click on My (top tool bar)

- Type in Classroom Screen Name
- Choose Password for All Student Access
- Type in Duration (this is for security purposes), explanation below:

Why duration? StoryJumper wants to ensure a student's privacy is maintained at all times. Setting class duration significantly decreases the chance for students in a shared computing environment (e.g. computer lab) to accidentally or intentionally access other students' accounts.

- Enter student names
- Passwords can be auto created or you can assign them to students
- Click on Save
- You can enter more students by clicking on ADD MORE to add new students

Teachers

Spark creativity

StoryJumper is a great tool for the classroom. Here's what other teachers are saying

"We used Story Jumper for our computer/writing time yesterday afternoon. The kids loved it, and were REALLY quiet. When I asked them why, they said they were having so much fun that they didn't want to annoy me lest I end the computer time!"
